

C2AE Celebrates 45 Years in Business

LANSING, MI – June 23, 2011 – C2AE, a full-service architectural, engineering, and planning design firm is proud to announce its 45-year anniversary on June 28. On this date in 1966 was when the civil and environmental engineering firm, Capitol Consultants was officially founded in Lansing. Since then, the firm has opened three new offices, merged with Grand Rapids-based architecture firm, DesignWorks A/E in 2005, changed its name to C2AE in 2007, and transitioned to a new CEO just last year. C2AE remains the largest A/E firm headquartered in Lansing.

The design of an anniversary logo complements the bold, unique corporate C2AE logo. One that clients, community members, and the general public will see both online and in print in the upcoming months. For the firm's 45-year anniversary, the focus is on the employees. They will celebrate with a firm-wide celebration on June 28th and will incorporate the anniversary milestone into other events planned throughout the year for employees and clients.

C2AE feels very fortunate to have a dedicated, strong employee base that has a passion for what they do. A long standing principle of the firm is that their success is built upon relationships. The firm's tagline "***It's The People***" is a philosophy they strongly believe in – relationships with both its employees and its clients is what is most important.

Reaffirming our commitment to quality and innovation, C2AE continues to look for new and better ways to serve our clients. "Developing innovative, cost-effective solutions to the challenges our clients face is our responsibility," President and CEO, Bill Kimble stated.

As C2AE celebrates its anniversary and reflects upon the past 45 years, Kimble sees a bright future for the firm. "We are a strong, stable, and growing firm that will be around for many more years", said Kimble.
